

## PLENUM KUTULAR PLENUM BOXES

### PB - PRODUCT SPECIFICATIONS:

- Standard Material: Galvanized Steel Sheet.
- Suitable for suspended roof applications. Assembling with main air duct is done via flexible air ducts, so placing grilles or diffusers is easier than any other application.
- Has four models: Standard Lateral Access (PB-182) Lateral Access with Spigot-Damper (PB-282), Standard Overhead Access (PB-382) and Overhead Access with Spigot-Damper (PB-482).
- On request, inner and outer surfaces can be insulated.
- On request, an air valve (made from perforated sheet) can be added for adjusting air volume.
- Screw, Clip or Support Beam assemblies are available for mounting.
